

Nature at Night

6:30 pm - 8:30 pm

Here's your chance to meet some of Florida's special nocturnal animals and take a moonlight hike at the Oxbow Eco-Center. Participants may bring a red-lens flashlight, or one that is covered with translucent red tape.

January 8

Nocturnal Neighbors

Ever wonder what happens in the night while you are tucked away in bed? Learn about the animals that like to frequent the neighborhood where you live. You'll get an inside look into the mysterious lives of frogs, nighthawks, opossums, raccoons and other creatures of the night.

February 12

An Owl Prowl Extraordinaire

Busch Wildlife will be swooping in again this year with their famous owls on Feb. 12th. This is your chance to learn about these fascinating birds of prey and how they are able to hunt— even in complete darkness. After the presentation we will be taking some of our feathered friends on a hike to see if we can call in other owls from the wild.

March 12

A 'Bat-astic' Adventure

Meet Denise Tomlinson and her bat friends from Bat World Everglades. Ms. Tomlinson will share facts about Florida's most interesting nocturnal mammal and why they are critical to the health of our environment. Following the presentation, "Batman" Ken Gioeli, natural resources agent for the St. Lucie County Cooperative Extension Service, will lead the hike with his sonar and other bat detecting devices.

The presentation is \$5 per person and advanced ticket purchase is required. Tickets can be purchased with Visa or MasterCard by phone or in person at the Oxbow Eco-Center.
